WHAT FOR?

Every citizen who has the welfare of this city, county and State at heart, should ask himself this question:-Why does the Railroad King make such extraordinary efforts to get control of all our political interests?-Why does he want to dictate to whom we shall or shall not elect to the offices which the law calls upon us to fill? A little examination into the motives which influence human conduct must certainly, in this case, be profitable; and cannot fail to assist the honest citizen in the intelligent and faithful discharge of his social and political duties.

His masterly defense is motive that stimulates exertion of the actions of the last Legislature, and activity in business; would that we could truthfully say that the motives of all men are just, upright and honorable. But what are the motives which stimulate the extraordinary conduct of the Railroad King? Why does he want to control our political actions and opinions? Aye, there's the rub. We must judge of what he wants by what he has atcampaign in Polk, as in other countempted to do. He made a great efislature, to immerse this thrifty young city in a burdensome debt of three hundred thousand dollars; and because Gov. Grover vetoed the bill. he has been the unrelenting enemy ing upon him all sorts of abuse and all kinds of maledictions. He wantgetting still larger sums. For some months past John Cameron and his wite, residing near Mount Crawford, Rockingham county, have lived unpleasantly together on account of his keeping a mistress, named Steinbeck, in the neighborhood, and it is said he frequently threatened to put her out of the way if she did not stop quarreling with him. They were both between forty and fifty years of age, and besides one grown daughter have several well-grown children. About two weeks ago Mrs. Cameron became so unwell as to require medicines, and before going out to work her husband mixed a dose of salts for her use .-Some time during the morning she swallowed the salts, and soon after was attacked with violent spasms, which increased so much in violence as to cause her to send for her husfort, two years ago, through the Leg- band and several neighbors. The neighbors arrived first, and, as her husband entered the door of her chamber, she pointed her finger at him and said: "John, you have poisoned me, as you said you would!" GRANT AND GUMBO. Among the distinguised citizens emarks the Sun, who took Vice-President Colfax at his word when he declared his intention to retire

from the political arena, is a South Carolina lady of color rejoicing in ment by a case of wife poisoning sur-rounded by all the horrors usually atring Gumbo. Mrs. Gumbo is champion of Woman's rights, and has proclaimed herself a candidate for the Vice-Presidency, and says that she will go to the City of Brotherly Love to press her claims in person. Her ticket, "Grant and Gumbo." would have the pierit of sounding well, and would be likely to carry many colored votes in the Virginias and Carolinas. It reminds one of the old slave ballad about the "Gumbo and the Cream." Common gallantry would seem to require that the lady's name should have the precedence, in which case the ticket would new surreptitiously obtained a key read "Gumlo and Grant," but under the system of woman's rights gallantry is out of the question. Considering that Colfax has retired so frequently, and that Grant's chances for a re-election to the Presidency are visably lessening we recommend the extensions of the franchise to the colored ladies of the South by Congressional enactment and the adoption of Mrs. Gumbo by the office-holders' convention as a brilliant coup d'etat. Among the events of the famous Mormon war was the burning of the Nauvoo Temple. The structure was burned in the night time, and so successful was the party engaged in its firing that probably he was never even suspected. The recent death of the incendiary, however, has removed the necessity of further secrecy, and a day or two ago we were put in possesion of his name and the facts connected with the burning of the Temple by the only living person cognizant of them. The Temple was fired by Joseph B. Agnew, who recently died in Appanoose township. Hancock county, in this State, at the age of some 58 years. It was always supposed that the party who burned the building had entered through the basement, but the facts are, Mr. Agto one of the doors of the Temple some time before the act. No one was engaged with him, and only four knew he was the party. Three of these are now dead. Agnew prepared his fire-balls and other bustibles at his residence. Placing them in his saddle-bags, he rode on horseback to Nauvoo, and in the night entered the Temple with his key, passed up to the cupola, arranged his materials and fired them and then quietly escaped the way he came. Our informant, who is a re sponsible and prominent citizen of General Grant received in the popu-lar vote of 1868 a majority of 209, he thinks he can procure the key the western part of the State, says
